IT is staren that the damage done to the canals, by the late freshet, is not so great as at prominently before the public.

A woman recently got a divorce from her husband, in Illinois, because he insisted (very like a horse) in sleeping with his shoes on. A GERNAN physician maintains that ladies of

weak nerves sho'd not be permitted to sleep alone. There are many who agree with him. THE recent heavy rains have seriously damag-

ed the oats in some parts of this county. Some fields have been entirely "washed out."

A PROTRACTED effort has been going on in the cause of Methodism, in this place, for a few weeks past. It is to be hoped that these labors may be richly rewarded in the conversion of many souls to ! hrist.

THE Assessors have commenced their labors, and those having taxable property may soon expect to receive a "call" from these functionaries. We beleive they are required to make their returns by the first Monday in June.

"MAY I BE MARRIED, MA?" said a lovely girl of fifteen, to her mother, the other day. "Married!" exclaimed the astonished matron; "what put such an idea into your head?" "Little Emily, here, has never seen a wedding, and I'd like to amuse the child," replied the obliging sister, with Mr. Thomas Beer, Esq. facinating simplicity.

DIED FROM THE EFFECTS OF A SCAMD .-- On the 7th ult,, an infant daughter of F. and Lydia A. It suffered much and died from the injury thus received on Monday morning last, voltage, a 184 July

THE DAYTON EMPIRE has changed hands. Mr. Clark (by the way a remarkable clever fellow) cetires with a view to engaging in other business. The publication of the paper will be continued by l. R. Kelly & Co. Mr. Bollmeyer takes charge of the editorial department. In everything but political matters we wish the new firm much prosperity.

A. G. WILLEAMS & Bro, have opened a new dry goods store, at the old stand formerly occupied Power & Blinn, on Front street, to which they invite the attention of the public. They have a large and well selected stock of goods, and those in want would do well to give them a call. See advertisement.

The habit of the people is getting more and more in the way of depending on the eyesight. If you go on a journey, and ask when the cars will start, ten to one you don't fully believe what is told you, but look around for the advertisement. When you wish to buy or sell, you don't go about looking for eastomers, but call in the aid of the printer, and address thousands of your fellow citizens at once.

INFORMATION WANTED .-- Information is wanted of William McLeun, who came to Ohio from Ireland and remained until 1856, since which time he has not been heard from by his relatives. He is about 45 years of age, and of dark complexion. At last accounts he was at Cumberland, Guernsey county, Ohio. Any information in regard to him will be thankfully received by his nephew, Wm. McLoug, at Panora, Guchrie county, Iowa.

THE CROPS -- During the past two weeks we have traveled through some twenty of the Northwestern and Southern counties of this State, and are therefore enabled to speak of the appearances of crops from personal observation. So far the spring has been quite favorable for farm work, progressing rapidly. The appearance of wheat, generally speaking, is good, though in the Northern counties it was much damaged by the severe winter weather. Especially is this the case with that sown on uplands. Drilled wheat looks better everywhere, and we are glad to notice that farmers are beginning to avail themcal way of doing business.

In regard to praches we were beginning to flatter ourselves with the prospect of having a C & T. R. R. departs at 5:30 A. M., 10:35 A. M. and handsome field, but the heavy frosts of the past week have served to dampen our ardor on this point. However, it is presumed that the dry winds, with which we have been favored, have to a considerable extent prevented the buds from receiving entire destruction, and if they escape the May frosts there may yet be a pretty fair crop.

Of apples, cherries and the ordinary fruits, the of prospect for a full yield is as good as usual .-They are in bloom now, and, of course are entirely at the mercy of the frosts.

A VISIT TO TIFFIN, -During the past week we took occasion to pay our Seneca county neighbors a hosty visit, and had the pleasure of shaking hands with a number of our personal as well as political friends. In our perambulations about Tiffia, we called on Messrs, McKee & McClelland at the Tribune office, and Mr. Armstrong, at the Advertiser office. These gentlemen complain some of having too much business-especially in the line of advertising. This speaks well for the intelligence and perseverance MRS. SARAH ROBINSON, aged about fifty years, of the merchants and tradesmen of Tiffit. It shows a just appreciation of the merits of home newspapers, while it indicates a determination on the part of business men to place themselves

CONDUCTOR BRANNON -- of the Sandusky, Dayton & Cincinnati R. Always affable and courtrous, he has very naturally won the respect of all with whom he has dealings. With the S. D. & C. R. R. he has become an indispensable institution, and if ever we have occasion to pass in that direction again, we hope to be favored with a "wag of his paw."

Neighboring County News

The citizens of Fremont are congratulating them-elves on the prospect of soon having the town lit with gas.

WILD CHERRY BALSAM.

-The following is worthy the attention of all who are interested for themselves and friends: John D. Park-Dear Sir: In offering my testimo ny in favor of your Wistar's Balsam of Wild Cherry, I speak from my own experience, having received signal benefit from the use of ore or two bottles, which were urged upon me by my apothecary, who backed up his remarks by giving some extraordina-ry, results from its use, as having come within his knowledge. I had taken a violent cold, followed by a deep seated cough, which frequently produced vomiting, with pain in the side. I breathed with difficulty, had night sweats, lost my appetite; in fact I was completely prostrated. My physician pre-scribed for me, but I found no relief. I commenced taking them in small doses, and began to improve, -My cough abated, my strength and appetite returned, and in a few days I was able to attend my basi-

recovery, and cheerfully give you leave to make whatever use you please of this statement,
Very Respectfully, yours, &c..
